

ONTARIO DOUBLES TAX CREDIT FOR APPRENTICES

Employers can now receive up to \$10,000 per year per apprentice

Collision repair facility employers who hire and train apprentices can now receive enhanced tax credits to help better offset any risks and costs involved in hiring these workers.

The Apprenticeship Training Tax Credit has been doubled from the former \$5,000 per year limit to \$10,000 per year, per apprentice.

The credit is based on an increased percentage of wages and costs expended and the maximum credit for each apprentice of \$10,000 per year means that over a 36 month period of apprenticeship the tax credit goes to \$30,000.

If you have questions relating to the tax administration of the Apprenticeship Training Tax Credit, phone the Ministry of Corporate Tax Branch at 1-866-805-7702, extension 3888.
